OSL Glimpse

Oblivion Solutions Limited (OSL) is a consulting and solution provider company focused on solving business and technology challenges to meet your organization's goals. As our business and the industry mature, we continue to focus on a solutions-oriented approach, delivering leading edge technology that is shaping the future. Our strength lies in our ability to react quickly and move ahead of the changing trends in the marketplace to meet our client's business needs. We have partnered with the best technology companies in the industry. Through our partnerships, we have positioned ourselves as a top-tier resource delivering high-end technology solutions and services.

Mission Statement

"OSL" consists of a group of passionate and dedicated individuals, and aspires to provide IT service and solution globally where client satisfaction comes first. When we help our clients to win, we win!

Vision

OSL is built on a set of principles- bringing cost effective, efficient, and quality-driven IT solution to our valued clients. At OSL, we strive to lead in with new ideas, latest technology, innovative solution and use information technologies to transform customer needs into customer strength. Through our professional solutions, services and consulting businesses worldwide, we engage to build long-term client relationships based on mutual trust and respect.

Dedication to every client's win and success

We are passionate about building strong, long-lasting client relationships. This dedication spurs us to go "above and beyond" on our client's behalf. We are focused on outcomes. We sell products, services and solutions to help our clients. We demonstrate this personal dedication to every client, from the largest corporation and government agency to SME's.

Solutions that matters for the company and for the customers

We are forward thinkers. We believe that the application of intelligence, reason and science can improve business, society and the human condition. We love grand challenges, as well as everyday improvements. Whatever the problem or the context, we seek ways to tackle it creatively — to be an innovator. We strive to be first — in technology, in business, in responsible policy. We take informed risks and champion new ideas.

Core Values

"We are the decisive factor behind your success"

Trust and personal responsibility in all relationships

We actively build relationships with all the constituencies of our business — including clients, partners, peers and communities, We build trust by listening, following through and keeping their word. We rely on our colleagues to do the right thing. We preserve trust even when formal relationships end.

Our
Methodology

The power of a solution methodology is inversely proportional to the generality of the method chosen. The more specific the method the more powerful it is in creating effective solutions. Our team follows a solution methodology that is both specific and realistic. This provides a development framework that our customers can count on to deliver a solution that fully meets their needs.
